Awards to Be Presented to Grade School Graduates

Presentation of the American Legion honor medal and certificate to the outstanding boy and girl of the Antioch Grade school graduating class will be among the features of joint exercises to be held by Antioch and nearby schools this Thursday evening in the high school auditorium.

Barbara Dicknell will at that time receive the award for the outstanding girl and Charles Vykuta that for the outstanding boy. Otto S. Klass, Americanization officer of the Antioch Legion post, will make the presentations.

The Rev. Frank E. Butterworth of Gurnee is to be the principal speaker of the evening.

This Wednesday evening the annual graduation banquet of Antioch Grade school was held in the Ball hotel, with members of the eighth grade and their parents in attendance.

Capt. Powles Is Called Into Air Corps Service

Capt. L. D. Powles, who has been transferred from the quartermaster's corps of the U. S. army reserve to the supply department of the air corps, has been ordered into active service for a year, commencing June 6.

Powles will be stationed at Wright Field, Dayton, Ohio, but will leave first to report for temporary duty at Chanute Field, Rantoul, Ill., through which he will "clear" for Dayton.

His orders read, in part, as follows:

"By direction of the President under the authority contained in Public Resolution No. 96, 76th Congress, approved August, 1940, Captain Laurel D. Powles, Quartermaster Corps Reserve, is ordered to active duty with the Air Corps, effective 6 June, 1941, with permanent station at Wright Field, Dayton, Ohio. On that date he will proceed from Antioch, Illinois, to Chanute Field, Illinois, reporting to the commanding general for temporary duty for the purpose of undergoing a complete physical examination and by letter to the commanding officer, Wright Field. Upon completion of this temporary duty he will, if found physically qualified, proceed to his permanent station. Captain Powles will rank from 26 March, 1941. He will be relieved from duty in time to enable him to arrive at his home on 5 June, 1942, on which he will revert to inactive status."

Powles is reported to have passed the examination for the air corps rating with high honors.

Last year he spent two periods of 30 days each in active service, at Camp Jackson in North Carolina and at Camp McCoy in Wisconsin. He was placed in charge of a "railhead," over which camp supplies were received, at Camp McCoy.

The Antioch board of trustees, of which he is a member, plans to vote him a year's leave of absence at its meeting June 3, and he will also receive a year's of absence as captain of the Antioch Rescue squad. First Lieutenant Herman Holbek will serve as acting captain. In preparation for the possibility that he would be called in acting service, he had earlier resigned the presidency of the Antioch Fire department.

It is expected that at Wright field he will be in frequent contact with Nason Sibley of Antioch, who is superintendent of construction work for the federal government there.

Capt. Powles' family will remain in Antioch until he can find suitable living quarters for them at Dayton.

Sugar Grove and Harvard Divide Honors in Contest

Antioch High School Takes Third Place in Dairy Division

The annual Northeastern Vocational Agriculture Livestock Judging contest held at Antioch Friday was a huge success. All of the eighteen schools in the Section were represented. One hundred and eighty contestants, 18 vocational agriculture instructors, and some 12 other assistants and judges attended the event.

Harvard Wins in Dairy

The team from Harvard in McHenry county won the dairy cattle judging contest with a score of 1880. Dundee followed with 1811.5 points, while Antioch was third with 1774. Other teams down to tenth place and in the order named were: Capron, Woodstock, Naperville, Marengo, Wauconda, Palatine and Plato Center.

John Ellsworth of Harvard was the high individual of the Dairy section. Lawrence Keisler of Antioch was the only Lake county boy to place in the upper ten high individual dairy judges. He received seventh place ribbon.

Sugar Grove Wins Fat Stock Contest

The team from Sugar Grove down in Kane county won the Fat Stock division honors with a score of 1958. Hampshire placed second with 1920 points, while Elgin was third with 1816. Other teams in order down to the tenth place were as follows: Maple Park, Plato Center, Antioch, Big Rock, Lake Zurich, Harvard, and Woodstock.

William Yagen of Maple Park was the high individual of the Fat Stock division. Lake county boys who placed in the first ten highest individuals were Wayne Drom tied for 8th and Albert Smith placing 10th. Both boys were from the Antioch Township High school.

John H. Brock, Farm Adviser of McHenry county was the official judge of dairy cattle.

William Duncan, Ray Nicholas, and William Gruenwald judged the Fat Stock division.

C. L. Kutil, Vocational Agriculture instructor of the Antioch High school was manager of the contest and was assisted by Gilbert Clem of Gurnee, P. B. Adams of Harvard, H. A. Herstrum of Palatine, and others in various capacities.

The Ravenscroft Farms, Stephens Bros.; Millgate Farms; Pleasant View Farms; Mitchell's; and Lindenhurst farm supplied the livestock and the schools of this corner of the state appreciate very much the fine opportunity their students had in seeing and studying such unusually fine stock as is found in this vicinity.

Kenosha Horse Show Attracts Interest Here

Entrants from the Antioch region are among those who are expected to take part in the fifth annual horse show to be sponsored by the Lake Shore Saddle and Bridle association to be staged Saturday afternoon and evening, June 28, in the Washington Park "bowl", Kenosha.

Entries from various other Illinois communities as well as from Wisconsin will take part.

Last year there were more than 100 entries and an attendance of more than 8,000.

The classes this year will be as follows:

1. Children's classes, 12 years and under.
2. Children's classes, 17 years and under.
3. Three-gaited open.
4. Whitaker Trophy class.
5. Five-gaited open.
6. Hunter class.
7. Jumper open, special course.
8. Lakeshore Saddle and Bridle Ass'n. Trophy class.
9. Adult amateur.
10. Fine Harness class.
11. Pair class.
12. Wisconsin Pleasure Horse Association class.

In the last class a great deal of interest is manifest, as this class is open to members of the Wisconsin Pleasure Horse association only, and professional as well as amateur riders will compete.

The Lake Shore Saddle and Bridle association, the first organization of its kind in Wisconsin, is affiliated with the Wisconsin Pleasure Horse association. It has members in Illinois as well as in Wisconsin.

Rev. and Mrs. W. C. Henslee returned home Friday after spending several days at their cottage on Two Sisters lake near Rhinelander, Wis.

SPRING HOUSE CLEANING

'round the lakes Poppy Day Sale Successful

A feeling of expectancy lies over Antioch's many noted resorts and places of entertainment as they prepare to welcome visitors during the first "official" week-end of the season.

Besides Antioch's well known fishing, boating and swimming facilities, many other sports may be enjoyed in the beautiful "vacation land" of the lakes.

Among the fine golf courses of the region is Our Country Club, located on Highway 21-83, at Liberty Corners, north of Antioch. Cedar Crest golf club, south-west of Antioch on Highway 59, is also open for the season. Refreshment facilities are available at both places.

Ed Knickelbein's famous Herman's resort, on Bluff lake, again will delight epicurean patrons with delicious genuine southern fried shrimp and other fine food. Also at Bluff lake the picnicer will find excellent bathing facilities at Steitz's place. Genuine southern fried chicken, Georgia style, will be featured at Bob Hardman's. And over at Loon Lake corner Fritz Wolf's famous Ice Man's Inn, featuring delicious barbecue sandwiches, and Cermak's tavern, noted for its real Bohemian-American cooking, are two havens for the weary who are also hungry and thirsty.

"Duke" Duda, down at "Little America" resort on Klondike Point, welcomes fishermen and also conducts excursion rides on the lakes. The "Nineteenth Hole" on Highway 59, just next door to Cedar Crest, makes a specialty of its fried chicken and has picnic grounds and, in season, outdoor dancing.

Sunday dinners, catering especially to the "family trade," have long been in favor with the many visitors to Anderson's tavern on Route 59, which also has a bar and a "country store" in conjunction with the dining room.

West of Antioch, on Highway 173, Adolph's Channel Inn is catering to people with restless feet, with an orchestra Friday and Saturday evening.

Dancing, too, will be the order of the evening Saturday at Pasadena Gardens, on Highway 21-83 north of Antioch, where Louis Durkee and his orchestra will play likewise at Joe Fox's Maple Inn, featuring a colored orchestra every night but Monday. Nearer Antioch on the same highway is Dominic's State Line Inn, noted for genuine Italian cooking. . . . and fried chicken. . . . and among the places extending a welcome in Antioch itself are Nevitt's, with fish fries on Fridays, and fried chicken Saturday, and Bernie's tavern, which offers excellent drinks and has Budweiser on tap.

Many other places at the lakes around Antioch and in the village itself offer widely varied but thoroughly tempting food and drink menus. Scarcely it is believed, can such a wide variety of fine food, and such an amazing assemblage of "national" and "regional" cooking be found within so small a compass. Food recipes and specialties garnered from all over the country, and from many nations come to their flowering here. . . . to the delight of gourmet and gourmand. . . . and just ordinary folks like the rest of us, who enjoy a good time and good food. . . . both of which can be had in abundance at Antioch.

Rebekah lodge will sponsor a public card party Monday evening, June 9, at 8 o'clock at the L. O. O. Fellows hall. Admission 25 cents. Refreshments included. Bridge, pinocle, and 500 will be played.

Poppy Day Sale Successful

"The Antioch Unit of the American Legion Auxiliary wishes to thank the community for its splendid response on Poppy Day," Auxiliary officers announce. "In response to many queries, here is a standardized summary of how the money is spent:

\$36.00 annually to help maintain the National Veterans' Claims office

\$10.60 annually for parties or entertainment at the Veteran's hospital at Downey (No. Chicago) where more than 1400 shell-shocked mental cases are still confined

\$18.00 annually for Child Welfare work at the orphanage for veterans' children at Normal, Ill.

\$18.00 annually for cigarettes for the hospitalized men at Downey

\$ 5.00 annually for the Christmas fund for individual gifts for hospital veterans

\$10.00 annually to help swell the Auxiliary Loan Fund which is managed by the Dept. of Ill., to help deserving children finish their education

Various other causes and funds are aided throughout the year, with approximately \$400.00 per year being spent by the 56 members of the Antioch unit.

"During the sale 1,400 poppies were purchased of the auxiliary by residents of Antioch and visitors, and a total of \$135.71 was realized.

"Besides thanking the public for responding so generously, the auxiliary also wishes to thank the children and young people who assisted in conducting the sale."

"On Thursday evening, June 5, Mrs. Earl Hays will present her 'Deanna Durbin' skit as part of a variety program at the Veteran's hospital at Downey. Mrs. Paul Ferris will be her accompanist."

Antioch Meets Barrington Here This Afternoon

Antioch will attempt in its final baseball game of the season, with Barrington here this Thursday afternoon, to alter matters somewhat from the circumstances that saw Barrington a winner, 7-1, in a game there Tuesday afternoon.

Barrington scored in the fourth and fifth innings, 3 and 4 runs in the respective order.

Following are the scores:

ANTIOCH	AB	R	E
J. Ropenack, 3b	3	2	1
A. Carpenter, rf	4	1	0

Zimmerman	3	1	0
White	3	0	0
Schroeder	3	0	0
Hargraves	2	0	1
Gardner	2	1	1
	24	5	7

Winning Pitcher, Zimmerman.

Antioch Prepares to Welcome Great Holiday Throng

Three-Day Holiday to Bring Season's First Big Trek to Vacation Land

The season's first big trek to the "vacation land" of the Chain O' Lakes around Antioch will start with the three-day holiday period including Memorial Day (Friday), Saturday and Sunday.

Vacationists and resort owners alike are hoping for a continuance of the fine early summer weather that has already brought many summer residents out from the city to open their lakeside homes for the season.

In anticipation of the large influx of week-end visitors expected, Antioch store owners and restaurateurs have laid in supplies of foodstuffs, and merchandise, including fishing and other sports equipment, and sportswear, which will be amply adequate to care for all needs.

Before the days of motor truck deliveries, when railroad freight shipments could be checked with accuracy, Antioch's railroad freight shipments were second in Lake county only to those of Waukegan, a city of nearly 40,000 inhabitants. It is believed that with the great increase of lake region population in recent years this volume is even larger, now, in Antioch's favor.

Resorts Improve Facilities

In preparation for the start of the season, resorts have brightened up their premises and all, almost without exception, have installed additional facilities for the convenience and comfort of their guests.

Antioch's first aid group and rescue truck crew will stand by at all hours to render prompt assistance in case of emergencies. Other civic groups, and all business places and citizens, will extend a welcome to visitors, not only during the season's first big holiday, but throughout the season and all year around.

Mrs. Margaret Hegeman, Former Assistant County Superintendent, Dies

Passes Away at Chicago Hospital After Several Months' Illness

Margaret Powers Hegeman was born at Long Lake, Ill., on Jan. 25, 1905. Her parents were John and Julia Powers who both preceded her in death. When she was very young, her parents moved to a farm near McHenry, Ill. She lived in that vicinity until about the age of twelve years, and at the death of her mother went to live with her aunt and uncle, Mr. and Mrs. John Kelly, at Russell, Ill., where she continued to make her home until her marriage.

She completed her high school course in Chicago and attended the State Teachers' College at DeKalb, Ill. She taught in the public schools of Lake county and later became Assistant County superintendent of schools.

She was united in marriage to Roland L. Hegeman of Wilmet, Wis., on October 15, 1938.

She became ill last September and has been confined to her home since that time. On May 6 she was taken to St. Luke's hospital in Chicago for surgery. She passed away early Sunday morning, May 25, 1941.

She leaves to mourn her death her husband, Roland L. Hegeman, her two sisters, Mrs. Edward O'Callaghan of Oak Park, Ill., and Mrs. J. Thoman of White Plains, New York, one brother, Donald Powers of California, her step-mother, Mrs. Mary Powers and half-sister, Jeanne, of Round Lake, Ill., her aunt and cousins with whom she made her home, Mrs. John Kelly and son, Carl, of Russell, Ill., and Mrs. Joseph Lavendosky, Waukegan, Ill., and an aunt, Miss Etta Powers, of McHenry. Besides these relatives, she leaves innumerable loyal friends to mourn her untimely passing.

Funeral services were held from the home at Wilmet at 2:00 P. M., on Wednesday afternoon, May 28. Interment was in

Vacations Mean More Now

Americans take vacation time seriously. We work hard and play hard in this country. The English humorous magazine *Punch*, paying too much attention to the latter habit, once declared that America isn't a country—it's a picnic.

Vacations mean a lot to us because they are a part of the whole pattern of freedom under which we live. No state-arranged "workers' tours" and "labor battalion holidays" for us! The people of the United States pay their ten billion dollars annually for amusement and recreation in their own liberty-loving way!

Well, summer is nearly here again, and this is not quite like other years. A huge national defense program is under way, calling for the best that is in every one of us. And it is already apparent that for some Americans, there will be less time for relaxation this year than heretofore.

Skilled management will be in great demand at this crucial time in the defense program. The busy employer, whose symbol at present is the sandwich and cup of coffee for a lunch at his desk, will often be forced to forego a vacation this year.

Skilled workers will be in great demand, too. Already the employees of some companies working on defense have voted to take their vacation pay as a bonus and go right on working to make sure that their country will be armed in time.

But if the management and workmen in our industries, and all those who have a stake in building this nation's defenses, can give less thought to the pleasures

of a summer in the mountains or on the beach, there is at least one point they will not forget. It is privileges like these that they are working harder now in order to render secure. And any liberty is only a thing of worth and dignity if those who enjoy it are willing to make sacrifices to insure against its being taken away. That is the vacation spirit of Americans in these difficult times.

"Monumental" Waste

Secretary of Treasury Morgenthau has urged a billion dollar cut in non-defense expenditures in the interests of fiscal well-being and national defense. Meanwhile, some members of Congress aren't exactly joining in a duet with Mr. Morgenthau on the subject.

A whole host of new bills for pet projects have been presented for Congressional consideration. Bills for monuments and memorials alone total over six million dollars. These would honor many local figures in our national history, way down to Coronado, Spanish explorer, and Leif Ericson, who—maybe—first discovered America.

Other measures aimed at increasing salaries and handing out special benefits and easements bring the pet project spending figure to a much higher level. There is even a suggested appropriation of \$50,000 for printing a book on horse and cattle diseases. This volume could go on the shelves of the five libraries which would be built in various cities in order to house government publications—cost of these libraries being a modest \$50,000,000!

"The expenditure is practically nothing," said one representative in seeking authorization for an "historical frieze" at a cost of \$20,000—twice a Congressman's salary.

It is against this attitude that advocates of economy must contend. Perhaps they might dramatize the issue by beating the spenders at their own game and advancing a bill for a small appropriation for just one more monument—an "historical frieze" to waste in the non-defense activities of government!

school diploma at the Burton Township exercises held at Richmond the last of the week. Nadia was the reader for the play, "America the Beautiful," and accompanied by Bessie Barnes sang a solo, "We Are All Americans."

Sunday guests of Mr. and Mrs. Ray Bufton were: Mrs. Etta Winn, Pleasant Prairie; Mrs. Hannah Sherman, Mrs. Ruby Sherman and daughter, Miss Phyllis Knox, Grayslake; and Mrs. Hattie Pacey.

Mr. and Mrs. Ben Busch and family attended a birthday dinner for Jean Robers at the home of her parents, Mr. and Mrs. Albert Robers, at Slades Corners.

Jeanette Wertz, Glencoe spent from Thursday to Saturday with her parents, Mr. and Mrs. William Wertz.

Mrs. Paul Voss and Miss Virgine Voss attended the Kenosha County Graduation exercises at Kenosha Saturday. Two pupils of the Oak Knoll school taught by Miss Voss were among the graduates to receive diplomas, Richard Schwandt and John Matson.

The Misses Naydean Wertz and Margaret Peterson spent Sunday in Chicago.

W. P. A. workmen have started construction work on the gates that are to be installed at the Wilnot dam by Kenosha county.

Sunday guests of Mr. and Mrs. Herbert Sarbacher were: Mr. and Mrs. Glen Oher, Woodstock. They accompanied Mr. and Mrs. Sarbacher to St. Luke's hospital at Racine to visit Alfred Sarbacher of Milwaukee who is recovering from surgery performed there on Saturday.

Private Harley Shottliff left by motor Sunday night for camp at San Angelo, Texas, after a three weeks furlough at the home of his parents, Mr. and Mrs. R. C. Shottliff.

Mr. and Mrs. Charles Boetcher, Caledonia, Mrs. Louis Burmeister of Franksville were Sunday guests of Mr. and Mrs. Charles Kanis.

Miss Viola Kanis, Warren Kanis, and Fred Oldenburg of Lake Geneva called Sunday on friends in Milwaukee.

Fred Zerbel, Alzoma, August Zerbel, of Paris were visitors Monday morning of August Holthoff.

The Rev. R. P. Otto motored to Kewanee, Wis. Sunday afternoon and returned Monday with Mrs. Otto and children who had been guests since Thursday of Mrs. Otto's mother, Mrs. B. Steub, at Kewanee.

Mr. and Mrs. Russell Mustin and Mr. and Mrs. Carl Dall, Chicago, spent the week-end at the Rasmussen apartment, which they have leased for the summer months.

Miss Margaret Cartwright has returned to her home at Oshkosh and Miss Marion Rhoades at Brighton at the close of the school year for the Wilnot Grade school. Both are to return in the fall for the next school term.

Mr. and Mrs. Ray Stoen and family spent Sunday at Wauconda, the guests of Mr. and Mrs. Glen Darwin.

Mrs. Hannah Sherman, Mrs. Ruby Sherman, Phyllis Knox, Grayslake, called on Mrs. Viola Sherman, Sunday afternoon.

Mr. and Mrs. Wayne Tilton and children, Randall, spent Sunday with Mr. and Mrs. Clem Tilton at Richmond.

Union Free High School

The "Echo" the annual school book, has been received and is most attractive in appearance and subject matter.

Anyone who has failed to receive their copy after subscribing, should notify the High School office.

The school baseball team emerged victorious in all games played this season and has been declared champion of the South Eastern Wisconsin district. The closing game was played with Norris Farms and that team was defeated 9-2.

Class night will be held at the gymnasium Tuesday evening, June 3. The public is invited to be present and no admission charge is asked for that evening.

Commencement exercises are to be held at the gymnasium on Thursday evening, June 5.

WILMOT

William Stenzel was much improved Thursday after collapsing in an Antioch store on Wednesday. The First Aid squad was called to care for him and their ambulance brought him to his home at Wilnot.

Erminie Carey entertained at her home at four tables of bridge in honor of Miss Ruth Thomas on Wednesday evening. Miss Thomas has resigned her position in the English department of the U. P. H. school and will leave for her home at West Salem at the close of the school year.

The severe wind storm of Thursday morning took down several trees in the vicinity but did little damage to buildings. Service of the Wisconsin Gas and Electric company and the New Era Telephone company was badly interrupted.

Mr. and Mrs. Charles Frank attended the wedding of Albert Zindel of

Kenosha and Pearl Warren of Joliet, at one o'clock Sunday afternoon. The ceremony was performed in the Church of God at Joliet. The bridegroom is a nephew of Mrs. Frank. Mr. and Mrs. Frank accompanied Mr. and Mrs. Fred Lenke and Mr. and Mrs. Leslie Spencer of Kenosha, who motored to Joliet for the ceremony. Mrs. Spencer is a sister of the bridegroom.

Mr. and Mrs. J. A. Nolan, Oak Park, were dinner guests of Grace Carey and evening guests of Mr. and Mrs. W. Dobson at McHenry.

Mildred Mordack of Bristol, Wis., a junior at Wisconsin State University at Madison, was given the Christine Steinbach award applicable in the Senior year of Home Economics for being the most outstanding student in all phases of her work on Friday evening during the Daisy Chain ceremony on Campus Hill at Madison. Mrs. Roy Mankewich Bristol and Erminie Carey, Wilnot, witnessed the presentation and remained for the weekend to attend other functions arranged to entertain parents and guests.

Mr. and Mrs. Martin Jerde and children were in Kenosha Saturday afternoon to attend the County Grade School graduation exercises at the Lincoln Junior School. Their daughter, Shirley, was a graduate.

Mr. and Mrs. Frank Kruckman were guests of relatives at Crystal Lake on Sunday.

Miss Virginia Neumann was home from Milwaukee for the weekend with her parents, Mr. and Mrs. Gus Neumann.

Mr. and Mrs. Walter Stopa, Chicago, proprietors of the Wilnot Ski hills, were out from the city Sunday

at the Hills. Mrs. Stopa has just had the cast removed from the leg broken while she was skiing on the Hills last March.

An infant child of Mr. and Mrs. Gilbert Schultz of Lake Geneva, was brought to the Wilnot cemetery for interment in the family plot on Monday morning.

Miss Anna Kroncke, who spent a week in New York, came back by plane to Chicago to be present at an annual picnic held by Kenosha friends on her grounds and for the annual school picnic at Fox River park of the Wilnot Grade school, sponsored by the Wilnot Mothers' club.

Russell Elwood returned to his home here Saturday evening from Chicago, where he has been for the past several weeks managing the restaurant owned by his mother, Mrs. Bertha Elwood, who has been ill.

Mr. and Mrs. Russell Elwood and sons and Mr. and Mrs. Don Herried and son of Chicago were Sunday guests of Mr. and Mrs. Harry McDougall.

Sunday guests of Mr. and Mrs. Fred Abrecht were: Mr. and Mrs. Max Hahn, Kenosha; Mr. and Mrs. Floyd Hahn, Kenosha; and Mr. and Mrs. William Wolf of Washington, D. C. G. W. Lewis was in Chicago for the day Monday.

Callers Sunday at the home of Mr. and Mrs. Paul Ginzlin were: Mr. and Mrs. Edward Boulden, Edison Park; Mrs. Sophie Christensen, Fox Lake; Mrs. Russell Schmalfeldt, Mrs. Charles Schmalfeldt and daughter, Lottie, from Kansasville; Mrs. Millie Faber, Silver Lake; and Mr. and Mrs. Charles Schrey of Antioch.

Antioch, Illinois

To All Coal Users of Antioch and Vicinity

We feel it our duty to inform you of the present uncertainty in the coal situation, and the possibility that it may become more serious as time goes on.

In view of this fact, which may later on interfere with our ability to make deliveries as called for, we urge all customers to anticipate their requirements for the coming winter and place their coal orders at as early a date as possible.

Prices on all grades of coal will advance on June 16.

Dean of The Moody Bible Institute
of Chicago.
(Released by Western Newspaper Union.)

Lesson for June 1

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

BROADENING CHRISTIAN HORIZONS: THE ANTIOCH MOVEMENT

LESSON TEXT—Acts 11:19-30.
GOLDEN TEXT—For I am not ashamed of the gospel of Christ: for it is the power of God unto salvation to everyone that believeth; to the Jew first, and also to the Greek.—Romans 1:16.

Scattered abroad! As the flying sparks and embers from a fire which is wildly beaten will light many new fires, just so persecution of the early Christians sent them abroad and established new centers for the preaching of the gospel. Verse 19 of our lesson connects with Acts 8:4. The ministry of Philip in Samaria was paralleled by that of others in Phenice, Cyprus, and now in Antioch. That great city was not far from Jerusalem, but it was far from God. A mighty city, rich in trade, it was also deep in all kinds of sin; but there it pleased God to establish a great center of Christian testimony. God loves to do new things (see, for example, II Cor. 5:17; Isa. 43:19; Ps. 33:3; Rev. 21:5).

I. A New Church (vv. 19-21).

What a splendid church it was! Here in the midst of the most evil surroundings the sweet flower of Christian faith grew, as it so often does.

It was a church built upon a faithful testimony by God's chosen witnesses "preaching the Lord Jesus" (v. 20). Their names are not noted, but their message is, and its blessed results. It was a gathering place for all people—Jews and Gentiles. The disciples from Jerusalem preached at first only to the Jews, but God sent others (v. 20), who preached His grace to the Gentiles. Note also that the Antioch church was a living witness. "The hand of the Lord was with them"—little wonder then that "a great number believed and were turned to the Lord." Your church—and mine—might learn much by studying the church at Antioch.

II. A New Fellowship (vv. 22-26).

The genius of Christianity is fellowship. Those who have a religious belief which makes them exclusive—not willing to fellowship with other Christians—do not truly represent their Lord.

When the church at Jerusalem heard the good news, they sent Barnabas to help the new converts and establish fellowship. He was the ideal man to send, for "he was a good man." It is far more important that a man be good than that he be brilliant if he is to edify young converts. He was "full of the Holy Ghost." He was also "full of faith," and no man that is not, need undertake the work of instructing and developing young converts, especially converts from heathenism so dark as that in Antioch. He was free from the love of gold (4:36, 37). He was free from personal ambition and jealousy in his work (vv. 25, 26). He was very sharp-eyed to see the sincerity and promise of a young convert (9:27). "When he was come, and had seen the grace of God, (he) was glad" (John W. Bradbury).

Into this new fellowship of life and service the gracious and generous Barnabas brought a new evangelist—Saul, God's prepared man for this hour.

But we have another new thing in our lesson, one of great importance.

III. A New Name (vv. 26-30).

Christian, the beautiful name of those who follow Christ was first used at Antioch. It may have held a measure of contempt (see Acts 26:28; I Pet. 4:16), but it was a remarkably suitable name for those who had come out of paganism now to live, in their old surroundings, a new life, a separated life, the Christ life.

This name "combines Jewish thought with Greek and Latin language, and thus, like the inscription on the cross, bears witness to the universality of Christianity as a religion for the whole world. The idea of 'Christ' (Messiah) is Jewish; the substantive 'Christ' (Christos) is Greek, and the adjectival termination 'ian' (-ianus) is Latin. This new name was intended to introduce and mark the difference between Jews and Gentiles on the one hand, and those who, whether Jews or Gentiles, were followers of Jesus Christ. . . . The term 'Christian' evidently points to the Person of Christ, and to those who are associated with Him as His followers. It implies and involves union and close association with Christ" (W. H. Griffith Thomas).

Those believers at Antioch not only bore the name, they practiced the life of Christ. Next Sunday we shall study their activity for Christ, for in that city began the great missionary movement which goes on to our day. In our lesson today we have another practical expression of their faith. They gave of their means, "every man according to his abilities," to meet the need of their new-found Jewish brethren in Judea.

Stork Coming? U. of I. Doctor Offers Answer

New Pregnancy Test Takes Only
Half Hour; 98% Reliable;
Inexpensive.

A new skin test for pregnancy which gives an indication in less than an hour has been developed at the University of Illinois College of Medicine. Its value has been determined at the college by trials on several hundred patients over a year's time.

It is similar to tests for allergy or hay fever, and is 98 per cent reliable—the same percentage of reliability as the Aschheim-Zondek pregnancy test widely used for the last decade, but which requires two days before results can be known. The older test also is considerably more expensive.

Dr. Frederick H. Falls, head of the department of gynecology and obstetrics in the University's medical college, has given attention to the problem since 1914.

From the public's standpoint, the speed and economy of the new test are its outstanding factors. From a medical standpoint, it is also of great value in helping to differentiate between pregnancy and abdominal tumor. The test also can help to determine quickly the presence of pregnancy when it occurs outside of the uterus, a condition which may be very dangerous to the mother.

This test is the third major medical contribution to be announced within a few months from the university's professional colleges in Chicago. Finding of a material to prevent tooth decay was announced recently, and shortly before that the development of an antiserum valuable in confirming diagnosis of cancer.

So far as the patient is concerned, the new pregnancy test consists of the injection into the skin of the forearm, with a fine hypodermic needle, of a minute amount of fluid which causes a bump like a mosquito bite.

If the woman being tested is pregnant, there is no reaction, but if she is not, a reddish area 1 to 2 inches in diameter appears around the injection point in a short period. It disappears in four or five hours.

The fluid injected is colostrum, a watery liquid secreted in the breasts during pregnancy. This is diluted with an equal amount of salt solution, to which a small amount of preservative is added. Each test uses one-fiftieth of a cubic centimeter of the preparation, an amount about equal to the size of three pin heads.

University Research Is Called Trailblazer

Scientific research in the laboratories of such institutions as the University of Illinois should get increased support because it blazes the way for the work of the nation's commercial laboratories and trains the workers for them, in the opinion of Dr. Vladimir K. Zworykin, associate director of RCA Research Laboratories, and developer of television and the electronic super-microscope.

"Scientific research laboratories such as these at the University of Illinois blaze the way, because it need not be interested in immediate commercial results as the commercial laboratories must," Dr. Zworykin said on a recent visit to the Illinois campus.

"The commercial laboratories are built upon the pioneering of institutional research. Adequate support to university laboratories is as important to balanced national scientific progress as support of commercial research."

"Laboratories are costly," he continued. "The day when a kitchen table and odds and ends from the basement constituted a laboratory are past. Today there must be adequate money to provide equipment and men."

Cyclotron at U. of I. Ready for Fall Use

With assembling of six huge iron castings weighing 60 tons, and placing on them two miles of copper tubing wound into a dozen pancake-like coils, construction of the big new atom-smashing cyclotron at the University of Illinois is nearing completion.

When completed it will be used to study the nucleus or core of the atom. Its radiations will equal those of six billion dollars worth of radium. It will manufacture artificially radioactive substances for use in physical, chemical, and biological research.

The copper alone weighs 10 tons. A 37-ton concrete block supports the machine in the university's new Radiation Laboratory. When completed, it will be roughly equivalent in results to any of the 15 other cyclotrons now in operation or under construction elsewhere in America.

The University of Illinois already has a small machine of this type, the world's second. With the new machine, Illinois will be in the forefront of pioneering research into secrets of the atom.

OUR DEMOCRACY—by Mat

PULLING ALL TOGETHER

OUR DEMOCRACY IS BASED ON THE STATES
GIVING CERTAIN POWERS TO THE
FEDERAL GOVERNMENT,
KEEPING OTHERS
THEMSELVES.

ON ADDITION TO THEIR OWN LEGISLATIVE, JUDICIAL AND EXECUTIVE BRANCHES, ALL STATES EXAMINE AND LICENSE DOCTORS, LAWYERS AND INSURANCE COMPANIES. EACH STATE HAS ITS OWN SCHOOL SYSTEM AND MAINTAINS ITS OWN POLICE FORCE.

BUT SOVEREIGN AS THEY ARE IN MANY WAYS,
OUR STATES PULL TOGETHER IN ALL OF
THEM TODAY THE DESIRE IS:
FULL SPEED AHEAD FOR NATIONAL DEFENSE.

Yesterdays

48 YEARS AGO
In the Antioch News
May 25, 1893

It would be well for some of our citizens to remember that the ordinance placing a license of \$5.00 per year on dice applies to all public places in the village.

F. L. Boutwell of Lake Villa was a caller at our office Monday. Mr. Boutwell has charge of the Lake Villa Stage Line, which has greatly improved under his supervision.

Carpenters and masons have been figuring on the plans for the new bank the past week.

The interior of the village hall will be plastered and fitted up in good shape soon.

Tuesday night the little hamlet of Gray's Lake on the W. C. line was the scene of a distressing accident which occurred just south of the depot when cars were derailed, including oil tanks loaded with gasoline, which caught fire and exploded, fatally burning one man.

35 YEARS AGO

Just press down your right toe!

Buick SPECIAL 6-passenger
Sedanet, \$1006. White
sidewall tires extra.

YOU slip into this trim Buick's seat—and right off the bat you know you've found something.

The cushions fit—the wheel nestles in your hand—the whole blessed beauty seems to say, "Welcome, friend! Where've you been?"

Then you seek out an open road where you can really try Compound Carburetion†—and press down your right toe!

Instantly there's a rush of power, as if an extra engine had gone to work.

Fact is—one has.

Under your bonnet a special, second carburetor has cut in, opening up a fresh reservoir of power not to be found in any other engine.

Most of the time that extra carburetor

is idle. Your car operates solely on the small, frugal forward carburetor.

But any time you need or want power—press down your toe and away you go, with two fuel mixers working!

Thrilling? You bet. But by actual test and experience, also more thrifty—as much as 10% to 15% more thrifty than previous Buicks of like size.

Only Buick can give you Compound Carburetion—and even that is only one of Buick's many desirabilities.

There's great size—lush comfort—the smartest of style—solid Buick goodness—all at prices that spell an unmistakable bargain. Why not ask your Buick dealer, "How much?"

BUICK PRICES BEGIN AT
915
for the Business Coupe

†Available at slight extra cost on some Buick SPECIAL models, standard on all other series.

William Brook and Bride are Expected Back by June 15

Expected to return June 15 from their honeymoon trip to Asheville, N. C., are Mr. and Mrs. William Edward Brook, whose marriage took place Saturday afternoon at 5:30 o'clock in the Presbyterian church at River Forest, Ill. They plan to make their home in Antioch. The bridegroom is employed in the State Bank of Antioch, where his father, J. Ernest Brook, is cashier.

For her wedding the bride, who is the daughter of Mr. and Mrs. Harry John Riess of River Forest and Channel Lake, wore a white tulle and tulle gown with a train. Her veil was finger-tip length, and she wore lace mitts on her hands. The "something borrowed" in her costume was a lace handkerchief that had been carried at their own wedding by the mother and grandmother of her maid of honor, Miss Janet Sutherland of Washington, D. C., who was the bride's room-mate at Beloit college and a Tri Delta sorority sister. Her bouquet was of white gladioli and larkspur.

Besides the bride's sister, Donna, and a cousin, Miss Joan Kessler of Oak Park, her attendants also included Miss Doris Edwards of Chicago, and Miss Carol Ingalls, of Westchester.

All wore bouffant gowns of turquoise mouseline de soie, with matching shoulder length veils. They carried arm bouquets of scarlet gladioli. Warren Miller of Dixon, Ill., a Phi Kappa Psi fraternity brother of the bridegroom's at Beloit college, acted as best man. Ushering were Howard Lowry of Oak Park, cousin of the bride, Paul Ritchey, Champaign; James Kapriva, Chicago, and George Ergan, Chicago.

The Rev. Clarence A. Spaulding, D. D., officiated at the ceremony, for which the altar was decorated with tall basket of white gladioli and peonies, palms and large candles.

A reception for 250 guests, in the church parlors, followed the ceremony. Decorations there were carried out in red and white, featuring summer flowers.

As they stood in the receiving line, Mrs. Riess wore a gown of powder blue crepe with hat of matching shade, and a corsage of white orchids, while Mrs. Brook was gowned in light blue lace and chiffon, also with a corsage of orchids.

Parties given for the bride during the weeks preceding her marriage included a personal shower, at which Mrs. Lloyd Murrie of Antioch was hostess; a luncheon shower, given by Miss Jewell at Westchester; and a luncheon shower, at which Miss Sally Simons of River Forest was hostess.

Mr. and Mrs. Earl Kessler of Oak Park, uncle and aunt of the bride, entertained at a luncheon for members of the bridal party.

Both the bride and the bridegroom attended Beloit college. The bride is a graduate of Oak Park High school and the bridegroom of Antioch Township High school.

The wedding was the occasion for a happy reunion for many Beloit college friends of the couple. Many out-of-town guests attended, including a large number of relatives and friends from Antioch.

The occasion was also graced by the presence of three grandmothers of the bride: Mrs. Mary Smart of Antioch, Mrs. Henry Riess of Jefferson, Wis., and Mrs. M. J. Lowrey of Oak Park.

Dr. and Mrs. H. E. Beebe are the guests of Mr. and Mrs. A. W. Beck this week. They leave Thursday for Chicago, where they will visit friends until Monday, when they will leave for the north.

N. E. Sibley of Wright Field, Dayton, Ohio, spent the weekend with his family here. Mrs. Sibley accompanied him to Dayton Sunday to spend the week.

EASTERN STAR HAS MEMORIAL SERVICES

At the regular meeting Thursday evening of the Antioch chapter O. E. S., very impressive memorial services were held, with the five star points and many of the officers wearing their new white robes.

Mrs. E. J. Hays served as soloist and Mrs. Deborah Van Patten acted as conductress in the absence of Mrs. C. E. Hennings.

After the meeting the members played cards and enjoyed light refreshments.

CHANNEL LAKE PARTY IS ATTENDED BY 80

The Channel Lake Community Club held its annual card-party and dance at the school-house Saturday evening, with 80 persons present.

Prizes in cards were awarded to Miss Evelyn Palaske, L. H. Rogers, Van Cura, John Tackles, C. Grazer, Mr. and Mrs. E. A. Krummark, Mrs. Michael McKinney was awarded the table lamp donated by S. B. Nelson.

Refreshments were served following the dancing.

OREGON WOMAN SENDS GREETINGS TO FRIENDS IN ANTIOCH

Mrs. Andrew Harrison, a former resident of Antioch who is now living at 841 N. Russell street, Portland, Oregon, writes of a surprise party given by her friends May 21, in honor of her birthday anniversary.

She also says, "I intended visiting my twin sister, Mrs. William Aronson in Antioch this year, but the Rose festival is June 11 to 14 and I expect guests from Montana. I wish you all could see our lovely City of Roses now—just can't describe the beauty."

My best wishes to all my friends in Antioch!

The Antioch Library board will meet this Thursday evening.

Georgia Ray Drury's Students Give Recital

Waukegan and Antioch Pupils of Georgia Ray Drury were presented in a piano recital Monday evening in the Antioch Methodist church. Isla Lamery, soprano, assisted.

Personals

Four tables of cards were enjoyed following the business meeting of the American Legion Auxiliary Friday evening at the home of Mrs. Lester Osmond.

Sunday guests of Mr. and Mrs. Russell Halvorsen, Grass Lake, were Mr. and Mrs. Henry Algram and children of Berwyn.

Our new selection of summer furniture is most complete now. Prices are very reasonable! Peltier Furniture company, 6209 Twenty-second avenue, Kenosha. (40-43c)

Dr. and Mrs. Earl James Hays celebrated their 21st wedding anniversary Monday with a dinner and theatre party.

Our new selection of summer furniture is most complete now. Prices are very reasonable! Peltier Furniture company, 6209 Twenty-second avenue, Kenosha. (40-43c)

Lions Club to Elect Officers June Ninth

New officers for the ensuing year will be elected by the Antioch Lions club on June 9, it was announced by President O. E. Hachmeister at the Monday night dinner meeting of the club held at Preger's resort.

The nominating committee will report its recommendations to members on the night of the election. It is the custom as advised by Lions International to change officers every year. The local club's year begins with the first meeting in July, which will allow newly elected officers ample time to formulate plans for the annual festival to be held in August.

HICKORY

Hickory school closed on Friday. The teacher, Miss Geyer, and the children took a bus trip to Chicago and went to a museum and visited a coal mine.

Sunday afternoon callers at the Max Irving home were Mr. and Mrs. George Olsen from Waukegan and Mr. and Mrs. Eric Anderson and baby, Rebecca, from Millburn.

Pikeville school held its eighth grade graduation exercises at the school house on Friday evening. Mrs. Patricia Mattner is the teacher. There were five graduates: Ruth Winfield, Dorothy Nelson, Juanita Freund, Dorothy Pittman and Ramona Paasch. The school closed on Tuesday of this week with a picnic at the school-house. West Newport school held its last day picnic Saturday at the school house. About 40 were present.

Mr. and Mrs. A. T. Savage and family visited the Tom Webb home on Grange Hall road Sunday evening.

Mr. and Mrs. George White entertained at dinner Sunday Mr. and Mrs. Richard Schenkenberg and four children from Kansasville, Wis.

Sunday afternoon callers at the H. A. Tillotson home were Mr. and Mrs. R. C. Bishop, Mr. and Mrs. Malcolm Bishop and baby, Beverly, and Mr. and Mrs. George Rohr, all from Kenosha.

Harold Wells of Burlington was the guest of honor at a picnic dinner and family reunion held at the Gordon Wells home last Sunday. Harold goes to Madison, Wis., early Wednesday, May 28, where he begins his training for the army. Those present at the picnic were Mr. and Mrs. Will Armour and son and Mrs. John Stevens and son from Millburn and the Curtis Wells and the Savage families and the Spencer Wells family from Burlington, Wis.

Sunday afternoon callers at the G. Wells home were Mr. and Mrs. Ed. Gullings from Waukegan, Mr. and Mrs. David Pullen and Thelma from Zion and Mrs. Don Anderson and children from Antioch.

Mr. and Mrs. Arthur Gehrand and daughter, Vera May, and son, Stanley, from Darien, Wis., visited the Crawford home Sunday afternoon. In the evening they and the Crawfords called on relatives in Waukegan.

Billy Preston returned home from the hospital Sunday evening after being there for several weeks.

Mr. and Mrs. Will Stuart and baby daughter returned home last Tuesday, May 29, from a visit with relatives in Tennessee.

Mr. and Mrs. Charles Griffin called on their mother, Mrs. Griffin, in Kenosha Sunday evening.

Miss Josie Mann and friends from Waukegan visited the A. T. Savage home Thursday evening.

Mr. and Mrs. Dayton Marrs and children spent Sunday at the home of Mr. and Mrs. J. N. Sexton at Garden Prairie.

Mr. and Mrs. Henry Conrad from Hales Corners, Wis., visited at the Crawford home Sunday afternoon.

Donald Irving and Jimmie McFarland attended the over-night scout meeting at their camp at Crooked Lake Saturday evening.

Mrs. Andrew Pedersen from Waukegan visited the first of the week at the home of her son, A. J. Pedersen.

Mr. and Mrs. William Huffman drove to Rhinecler, Wis., for the week-end.

Mrs. Rual Richards and two children and Mrs. Bert Logan from Sand-

WEEKLY NEWS ANALYSIS

By Edward C. Wayne

German Air Blitz on Island of Crete Results in 'Defense to Death' Fighting; U. S. Attitude Toward France Changes As Vichy-Berlin Strengthen Relations

(EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.)
(Released by Western Newspaper Union.)

NEW YORK.—One of the U. S. navy's new torpedo boats (foreground) and a coast guard cutter are shown cutting through the water of the Hudson river during recent maneuvers. These 55-mile-per-hour craft are equipped with torpedo tubes and depth bombs to battle larger destroyers and submarines.

CRETE:

An Air Test

The big island of Crete, which Prime Minister Churchill said would be defended "to the death" by an army composed of General Freyberg and New Zealand, British and Greek troops under his command suddenly became the center of the war when a dramatic and unexpected invasion of the island was made by air-borne Nazi troops.

There were some early reports that the Germans were coming also in normal transports, but there was little doubt that the air test was premeditated, and that the world was witnessing the first large-scale such endeavor since the days of the invasion of Norway, and of the Low Countries, particularly Holland.

British reported that the first 1,500 soldiers who landed in chutes were wearing the New Zealand uniform, and coldly announced that "they could expect to be shot." All of them, it was quickly reported, were either killed or rounded up rapidly.

Germany as promptly retorted that if any of the paratroopers were treated as spies and shot, Germany would reply "ten to one" in kind. But the British and Greeks didn't have long to wait or long to contemplate what to do with the first 1,500.

By the second morning of the invasion the British radio was reporting that the Nazi invasion force was 7,000, and on the second afternoon lifted this figure to 11,500.

This brought the German force to at least one full division, and a good way into the second division. And the British quickly estimated that this figure meant that the Germans had from 2,000 to 3,000 airplanes on duty in southern Greece.

The usual silence and mystery as to what actually was transpiring immediately was clamped down by the British ministry of information, which contented itself with issuing such generalities as "the situation is in hand," leaving it up to the Germans to give the world what information could be gleaned.

The German claims, as usual, were broad; the Nazis asserting that many important points had been captured, and that many British planes had been destroyed "on the ground."

British sources seemed willing to admit that the Germans had uttered mastery of the air, but General Freyberg said that every hilltop had its sentinel in Crete, that an elaborate method of signaling had been worked out, and that even those paratroopers who arrived at night were promptly spotted, reported and given action from the ground forces.

Neutral observers, however, pointed out that in order to effect large-scale landing of troops who were not paratroopers, the Germans must have obtained at least temporary control of landing fields, or must be using emergency fields.

British reports told of many transport planes shot down with their cargoes of men, both on the island and into the waters surrounding it. However, they also told of huge, unwieldy transport planes towing numbers of gliders loaded with men and munitions, a mode of transportation not reported in wide-scale use before.

How large the force on Crete was remained a military secret of the Greeks and the British, though there was considerable figuring done by

those who had followed the course of the invasion of Greece. The British claimed that most of its army in Greece had been taken back to Egypt, there to rejoin the army of the Nile, and to be rearmed from new supplies, part of which had come from the United States.

While it was known that some forces got into Crete, and that the Greeks salvaged considerable portions of one of its armies, the quantity was largely a matter of guesswork.

Most of the troops who got back to Egypt were Australians and British, hence most observers believed there was probably about one division of New Zealanders in Crete, and possibly the same number of British, and perhaps two or three times that number of Greeks.

British dispatches admitted practically complete control of the air by the Germans over Crete, and hence it was considered still more likely that the Germans, who had no particular need of Crete, might be trying the attack to test out in actual warfare what the paratroopers could do when well-supported from aloft.

VICHY:

A Turning Point

The flop of Vichy strongly into the Nazi encampment proved likely to prove a turning-point as to America's entry into the war. For one thing, it flopped one popular poll on convoys from a minority to a majority, and the administration in Washington, which had been accused in some quarters of watching these polls before acting, promptly announced that the convoy question has practically been settled.

President Roosevelt, it was said, does not like the word convoys, and is more in favor of the navy taking over portions of the Atlantic and Pacific, even as far as the Red Sea, for instance, and helping to create protective lanes through which aid-to-Britain ships could move safely.

This is the method American shipping experts have liked from the start, but it was significant that America's course was charted along these lines the day after the polls reported 52 per cent in favor of convoying and 41 per cent opposed and the other 7 per cent "undecided."

Public attention then turned to Vichy, and Secretary Hull warned France that she would have to give this country a plain and honest statement of just what her collaboration with Germany would consist of before France could hope to restore Franco-American relations to a state of amity.

This attitude was indeed a far cry from the days of 1917 and 1918, and the time when the first doughboys landed in France with "Lafayette, we're here" as their slogan.

Hull's strong declaration came at the same time when it was announced that a British flotilla was hovering about the ports of Martinique where the French aircraft carrier Bearn and other vessels were bottled up. There was some dispute over the report that these ships had been out at sea, but the British reported they were "simply on maneuvers."

But if they were poised for an attempt to run the British blockade, it was likely that there would be either fighting or scuttling or both in the South Atlantic, well within our "sphere of influence."

Mr. Hull's message to Vichy showed plainly that the state department has utterly lost faith in verbal pledges transmitted by the French envoy to this country, Gaston Henry-Haye.

The report that Ambassador Leahy would be recalled gained in stature, and writers on the continent or recently returned from there believed that possibly this action, which could not fail to get across to the body of the French people, might sway them to take a firmer stand toward Germany.

Big Job

This is General B. C. Freyberg, a New Zealander, who was in charge of the Greek-British defense of the island of Crete when the Nazi forces first loosed their air blitz against that stronghold. When the British were forced to withdraw their air force his duty became a gigantic task.

PLANES:

And Months

Statistical proof that thousands of planes, like Rome, can't be built in a day was given by Admiral Towers, who reported to Secretary of Navy Knox that in the past 10 months the navy has gained 1,304 planes of all types.

The navy now has 3,476 planes of all types, including trainers, and this compared with the British estimate that Germany was operating about 2,000 to 3,000 planes in the Battle of Crete alone, not counting those in use in other theaters of the war.

It also was significant that Admiral Towers' report to Mr. Knox was that the navy already is experiencing a shortage of pilots, which compared with Germany's reported 100,000 pilots trained before the war started. In fact, it was this pilot training program which first called the attention of the world to Germany's rebirth as a military power in spite of the restrictive efforts of the Treaty of Versailles.

Of the 1,304 planes which the navy has added to her forces, only about 600 of them are combat types, Admiral Towers revealed.

The goal of 50,000 fighting planes for the American army and navy combined was, therefore, envisioned as far in the future, Admiral Towers revealing that not until January, 1942, will the existing shortage of pilots be relieved. Not until then will the number of pilots begin to catch up with the number of planes.

DRAFT:

A New Plan

Pennsylvania called out in excess of 13,000 young men in the draft, trying out what was called a "new plan" aimed to "give the selected a break."

The plan was this. The 13,000 were to be called out, and immediately given a searching examination along all lines, including their final medical examination by the army doctors.

Then they were to be returned to their homes and jobs, those who were eligible to army life being placed on call in from 10 to 30 days, and the rest of them to return to their normal jobs, secure in the knowledge that they would not be called.

This was aimed to remove much of the uncertainty which grew out of the previous method of selective service picking. Dr. William Mather Lewis, selective service director of Pennsylvania, said he was advised that if the experiment proved a success there, it would be applied to the entire nation.

At the same time President Roosevelt put into being the OCD, or Office of Civilian Defense, with Mayor Fiorello LaGuardia of New York its head, working without salary, as will all of his intermediaries.

Also plans for the home guard were worked out at Washington, this group to function entirely separately from the OCD, which would ostensibly have a membership of millions of American men, women and even children.

One of the first tests of the United States against possible war was an utterly complete blackout of the Hawaiian islands, where even the isolated hamlets were darkened, and planes of the American army and navy flew overhead to inspect the situation and to see how complete it was.

LABOR:

The general handling of the strike situation rapidly by the Defense Mediation board continued, though widely criticized in certain quarters as being achieved at a price which eventually would make this nation a prey to inflation and rapidly soaring prices.

However, there was a shipyard strike on the West coast which seemed for a time to defy settlement, although the much larger coal and motors strikes were well in hand.

Railway Work At U. of I. High In Importance

Training and Research Now Integrated With Related Engineering Fields.

With railways very important to the nation's industrial and defense needs today, new importance is attached to the research and training offered in railway engineering at the University of Illinois. This work was recently "streamlined" and now is integrated with related engineering fields.

Back in 1906 the university established the nation's first railway engineering department. This served well, but today railway and other engineering fields are so closely related that the department has been abolished to facilitate the work.

As a result, students now find it more convenient to arrange their schedules to include more than 25 courses offered in railway mechanical, electrical, and civil engineering. Recently added are two timely new survey courses to acquaint students with all forms of transportation from canal boat and motor truck to railway train and airplane.

Students graduated in railway engineering at Illinois have had no difficulty in finding jobs even in the worst of depression years. In the past 33 years, 287 men have been graduated in this field. Today the opportunities for college trained men in railway engineering are reported greater than ever.

University of Illinois research in railway engineering has contributed much to the speed, safety, and economy of modern passenger and freight trains and the roadbeds on which they travel. At present five of the 22 major co-operative investigations being conducted by the university's Engineering Experiment station are in the railway field.

Past investigations have included roadbed and rails, locomotives and fuel, wheels and brakes, train resistance, and many other items. The university's investigations into bridges, metals, concrete, boilers, and similar subjects also have been of considerable value to the nation's railroads.

The University of Illinois has the only publicly owned locomotive testing laboratory of sufficient size to accommodate modern steam power units. Research in this may be of even more importance in the future than in the past, as increased locomotive efficiency is sought in the battle between steam power and oil-driven diesel power.

Student Church Projects Started At U. of Illinois

America's first church expressly for college students and faculty recently observed its thirty-fifth anniversary. It is the University Presbyterian church at the University of Illinois, started in 1906.

University Presbyterian church services were held in a university lecture hall until 1912, when the late Senator William B. McKinley gave the George McKinley Memorial church in memory of his father. Senator McKinley later gave McKinley Foundation, dedicated in 1930 as a center for Presbyterian students.

Like the student church movement, the student church foundation movement started at the University of Illinois. The Wesley foundation, established in 1914, was the first of its kind. Student churches and foundations now are found at many colleges and universities.

There are nine church foundations at the University of Illinois, and three additional churches are attended chiefly by students and faculty members. Although the university, as a state-supported institution, is non-sectarian, it allows some academic credit for religious courses presented in the Foundations at their own expense.

University records show that more than 85 per cent of the students have definite religious preferences. The leading faiths, in order of numbers, are Methodist, Catholic, Presbyterian, Jewish, Lutheran, and Baptist.

Teaching Jobs for U. of I.

Graduates Show Increases

"Highly satisfactory" is the record of jobs found in teaching and educational fields during the past year for University of Illinois graduates, according to the report of Prof. L. W. Williams, secretary of the university's Committee on Appointment of Teachers.

In the number of placements and number of calls for educational workers, it is the best record in the history of the committee, which started in 1912. The committee received 1,522 requests for recommendations during the year, an increase of 117 over last year.

Positions or advancement obtained were reported by 1,068 persons, an increase of 202. Enrollment of candidates with the committee increased 339. Total salaries of those placed amounted to \$1,404,420. This total is 10 1/2 per cent greater than last year.

HOG CHOLERA IS ON THE INCREASE

Hog Cholera still remains the greatest enemy of the swine raiser. Losses have amounted to as much as twenty million dollars yearly. Entire herds have been wiped out within a few days after the first signs of the sickness were noted.

Like many other virus diseases, hog cholera tends to follow a more or less definite cycle. The last peak of this cycle was the great nation-wide outbreak of 1926. Now the cholera occurrence cycle again seems to be in the ascendancy. For example, the 4,831 major outbreaks listed in 1938 were a 30 percent increase over the preceding year. In 1939 there were 6,262 major outbreaks or an increase of 25 per cent over 1938. Then up to June 30, 1940, there were 7,023 listed major outbreaks or a 12 percent increase over the preceding year. And these increases do not include the untold thousands of minor outbreaks which were unreported.

A recent survey by the American Foundation for Animal Health in a representative midwest state revealed that there was an appreciable increase in autumn and midwinter outbreaks.

Many swine diseases can be prevented by good sanitation, careful feeding and common sense husbandry methods. With cholera, however, only proper immunization with serum and virus (simultaneous method) offers positive protection.

Livestock conservation and national defense both demand protection of the country's essential swine industry against a devastating 1941 outbreak of dreaded hog cholera. Insurance

Hog Cholera Outbreaks

Year	Outbreaks
1899-1937	4,831
1938	6,262
1939	7,023
1940	7,023
1941	???

against such a disaster is possible if all swine raisers will have their spring pig crops properly vaccinated by a competent veterinarian around weaning time.

MISCELLANY:

LONDON: The first direct plea for the United States to enter the war as an active participant came from the News-Chronicle, which said:

"We want you in this war fighting on our side, not to save us from defeat but to help us to victory—quickly."

PHILADELPHIA: The Academy of Music refused the rental of its hall for the purpose of Col. Charles A. Lindbergh to make a speech.

Broadcasts of U. of I. Classes Lead America

Station WILL, the University of Illinois' non-commercial radio unit, probably led the nation in the amount of university-level educational broadcasts during the past year.

The station's annual report shows that 37 different university courses were broadcast direct from campus classrooms. "So far as we can learn, no other educational radio station broadcast so many hours of college-level education direct from university classrooms," Director Jos. F. Wright states.

More than eight and one-half million listeners are located in the WILL service area of Illinois, Indiana, and nearby parts of Kentucky, Wisconsin and Michigan. Included in this area are the cities of Chicago and Indianapolis, in which most listeners with modern radio receivers can hear the station.

Classroom broadcasts, although effective and popular as shown by listener comments, are far from the only programs of the University station. Dramatized educational presentations have taken an increasingly large time, as have round-table type discussions.

Musical programs are restricted to classical and semi-classical numbers. Presented regularly are members of the university's School of Music faculty, Concert band, First Regimental band, orchestra, chorus, Men's Glee club, and Women's Glee club.

A half-hour noontime farm program by the university's College of Agriculture is presented daily, except Sunday when the station does not broadcast. Special broadcasts are made from campus meetings and special conferences in which there is more than local interest.

X-Rays Show Flaws Of Metals in Tests By Illinois Chemist

A new technique for x-ray analysis of metals, alloys, welds, or small metal parts, which may be of great value to the armament industry as well as for peace-time work, has been developed by Dr. G. L. Clark, University of Illinois chemistry professor, and associates.

It involves x-raying a thin specimen of the metal on plates having special, extremely fine-grain photographic emulsions, and then enlarging this negative 100 to 200 times. The original photograph is about the size of the end of a lead pencil.

The enlargement shows whether the elements in the metal are spread evenly or bunched, and reveals any flaws or cracks which are in the metal. These flaws may be originally present or result from working the metal. Flaws in welds are instantly noticeable. Entire small parts may be x-rayed.

The x-ray gives the metallurgist a three-dimensional view, enabling him actually to look into the specimen. Other methods of microscopic study show him only the surface, and involve troublesome techniques of etching or polishing.

Professor Clark of the University of Illinois is a pioneer in micro-radiographic study of metals and alloys. The process was first applied to testing the light alloys for aircraft. He began this work in the x-ray laboratory of the French air ministry, and has carried it to its present stage of perfection in his laboratory at the university.

Unified Background Object of New Plan Of U. of I. Teaching

Old concepts of college courses as primarily preparation for specialized work have been thrown aside and replaced by a new idea of training to develop a well-founded and unified background of knowledge in the new general curriculum of the University of Illinois College of Liberal Arts and Sciences.

The idea was put into operation this year with 115 students. Next fall 250 new students will be allowed to start the work. It offers the option of graduation in the general curriculum or a general background for other work or for entrance into law, education, or journalism.

Customary narrow limits for study of chemistry or zoology, English or dramatics, American or European history have been discarded. Instead, the general curriculum freshmen are studying verbal expression, history of civilization, and biological science.

Each freshman also studies a foreign language and takes the courses in hygiene and physical education required of all freshmen, and the military science required of all freshmen men at the university.

In the sophomore year, the general curriculum students will study the physical sciences and courses in two of the following three fields: social science, literature and fine arts, philosophy and psychology. They will continue their foreign languages, and also enroll in the physical education required of all sophomores and military science required of all sophomore men.

Students Profit By Largeness Of U. of Illinois

University Reflects Desires and Needs of State; Responsible Directly to Citizens.

By HARRY A. ACKERBURG
(In Illinois Journal of Commerce)

In considering the field of higher education, there is too often the urge to explore distant green pastures of learning, when generally right at home there are colleges and universities which are even better fitted to the needs of the most meticulous.

Advantages of the University of Illinois accrue from its relation to the people of the State of Illinois and from its size. As the state university, it reflects the desires and needs of the people of the state in higher education for their children. Its board of trustees is elected by and responsible to the people of the state. Its services, in education and in research, are primarily for the people of the state.

Its functions are two. The first is to educate and train young people for their places in and as leaders of society. Second is the function of research, to increase the boundaries of knowledge in many fields. Research in engineering, agriculture, medicine, and many other fields has paid untold millions of dollars worth of dividends to the citizens who created and support the University of Illinois.

The fact of this research on the campus increases the university's educational values. Teachers come to their classrooms direct from the laboratories, bringing the latest information and the spirit of inquiry and progress.

From the size of the University of Illinois as the fourth largest educational institution of America, students derive benefits both in educational opportunities and in opportunities for personality development. A large university can have a distinguished faculty, whose influence cannot but be tremendous upon the students. It can have a large and well-stocked library, modern and well-equipped laboratories, and other facilities.

The University of Illinois comprises 15 colleges and schools. Were these separate institutions, a student could profit by the training of but one of these units. By their union in a university, he may pick and choose his work from any unit or combination of units to fit his own personal needs.

For the young man or woman with a particular job in mind, with special capabilities, or with the knowledge of a position available to him on the completion of his formal education, this opportunity to select special training combinations is very valuable.

For development of student personality, a large university is comparable only to society as a whole. A large university's students, with their many backgrounds and interests, are a cross-section of the world outside the campus bounds. Among the many students each can find others with interests similar to his, both in vocation and in avocations.

Modern educators realize that not all learning is through books or in the classrooms and laboratories. A large university gives the widest opportunity for extra-curricular activity and contacts, recognized as so important in development of a full personality.

Enamel Kitchenware Standards Being Set By U. of I. Research

With the current ban on aluminum for kitchenware, a University of Illinois research project to set up standards for enamelware is of great importance to the housewives of the nation.

Ten thousand perfectly good porcelain enamel pans are being destroyed in the university's ceramic engineering department in this research project.

It will enable manufacturers to label their products by nationwide standards, and also further improve enamelware. Today every manufacturer has his own standards, and the buyer's only safeguard is faith in the trademark of a recognized maker.

Through the Enamel Utensil Manufacturers' council, all makers of this product are uniting in financing and backing the research at the University of Illinois and in providing the 10,000 pans needed. All have agreed to adopt the standards to be set up.

Each test in the research process damages a pan beyond usefulness. Three problems are being worked on now, according to Prof. A. I. Andrews, supervisor of the work. The first is a resistance to heat shock, the sort of thing that happens when a porcelain saucepan boils dry and a housewife hastily dashes cold water into it.

The second is for resistance to impact, to blows such as happen when a housewife bangs her new enamel pan against a faucet, drops it, or drops something on it. The third test is for resistance to acids, many of which are involved in cooking and preparing foods.

ILLINI TALES by BLAKE HADDON

BLAKE HADDON WILL PAY \$1.00 FOR EACH HISTORICAL FACT OR ODDITY PERTAINING TO ILLINOIS, PUBLISHED IN THIS FEATURE - SEND CONTRIBUTIONS TO THIS PAPER.

TREVOR

Mrs. Wilson, Bassett, was a recent caller at the home of her son, Lee Wilson.

School closed Thursday with a picnic which was held at the school house instead of at Fox River Park, on account of the heavy rain.

Mr. and Mrs. Henry Prange and son spent Thursday evening with the

former's sister and husband, Mr. and Mrs. Orin Bohlen, at Russell, Ill.

Mrs. Hans Dietrich, Twin Lakes, visited with Mrs. Champ Parham Tuesday.

Mr. and Mrs. Morris Lux, Bristol, with Mrs. Ottila Schumacher called on the latter's son, John Schumacher, at St. Catherine's hospital, Kenosha.

Mrs. Alfred Dahl and niece, Miss Evelyn Jensen, visited the former's sister-in-law, Mrs. H. J. Beck and in-

fant daughter in Racine Wednesday. Mrs. Henry Prange and Mrs. Theron Hollister were Kenosha shoppers Friday.

On account of the rain and wind storm the Willing Workers enjoyed a pot luck dinner at the home of Mrs. Nellie Runyard, instead of at the park.

Mrs. Ed Bierns, Wilmet, spent Sunday afternoon with her mother, Mrs. Ottila Schumacher.

Mrs. Estelle May is spending a short vacation at the Nellie Runyard home. Wednesday they were sight-seeing in Chicago.

Mr. and Mrs. Henry Prange and son were Sunday dinner guests of his mother, Mrs. Jennie Prange, Bristol, and in the evening visited Mrs. Prange's parents, Mr. and Mrs. Harry Kerkman, Powers Lake.

Mr. and Mrs. Donald Murphy and son, Donald, Jr., Kenosha brought John Schumacher home from the hospital where he is receiving treatment for his eye.

The addition to Liberty cemetery which was recently purchased is being plotted and an electric mower is in use.

Mr. and Mrs. Theron Hollister were Waukegan callers Monday forenoon.

Robert Patrick and friend and Mr. and Mrs. Byron Patrick called on Mrs. Luanah Patrick Sunday afternoon. In the evening, Mrs. Luanah Patrick, son, Milton Patrick, and Miss Sarah Patrick called on Mr. and Mrs. Byron Patrick, Salem.

Mrs. Charles Oetting, Mrs. Joseph Smith and Mrs. Champ Parham were Kenosha visitors Friday.

William Hubbard and Daniel Kieffe were among the eighth graders who received their diplomas at the Lincoln Junior High school in Kenosha Saturday. Their parents were in attendance at the exercises.

Mr. and Mrs. Richard Mason, Milwaukee, are visiting Mrs. Mason's parents, Mr. and Mrs. Daniel Longman.

A number from Trevor and vicinity attended the Methodist card party held at the Wilmet gym Saturday evening.

Fritz Oetting, Berwyn, spent over the week-end with his uncle and aunt, Mr. and Mrs. Charles Oetting. On Sunday their son, Carl, from Mankato, Minn., arrived to make them a visit.

Mr. and Mrs. William Gallant, Salem, were Saturday evening guests

of their daughter and husband, Mr. and Mrs. Lee Wilson.

Joe Fernandez spent over the week-end with his family in Trevor.

Mr. and Mrs. Walter Kistenbroker, Forest Park, were Saturday evening visitors of Mr. and Mrs. A. J. Baethke.

Harley Shottliff and brother, Ronald, Wilmet, were Trevor callers Sunday.

Mr. and Mrs. Ed Yopp and daughter, Dolly, Racine, were Sunday visitors at the John Gever home.

... to sensitive canine ears, yet a sound that won't disturb the neighbors... that's the note of the amazing PURINA "SILENT" WHISTLE. Some pitch and frequency as imported whistles selling for as much as \$1.75, yet it's yours for only 25c and a special coupon from a bag of Purina Dog Chow... A dry food scientifically built and balanced to your dog's needs. Come in - get a bag for your dog today.

ANTIOCH MILLING CO.
Phone 10 - Antioch, Ill.

What are you doing this summer... now that the furnace is closed down?

Haven't you heard? They've put in Automatic Gas Water Heating—now I work all the time!

Enjoy instant hot water all summer long... with an AUTOMATIC GAS WATER HEATER

After the furnace is turned off, you're going to want even more hot water than ever, to take care of those refreshing showers after working and playing in hot weather. You can have summer hot water day or night, at the turn of a faucet, if you install an Automatic Gas Water Heater.

Economical to Operate. There is a special low rate for heating water automatically by gas. This means that cost of operation is very low—but don't take our word for it. You can prove how cheap it is by taking advantage of our 90-Day Proof of Economy Offer. Choice of Rex, Lovikin or Ruud Water Heaters. Act now—the offer is good for a limited time only!

Many neighborhood Master Plumbers are also offering liberal terms and home trial on Automatic Gas Water Heaters.

90-Day Proof of Economy Offer

1. We install a new Automatic Gas Water Heater for \$1.50 down (up to 48 months to pay the balance on your Gas Service Bill.)
2. You use it for 90 days and see for yourself how economical it is.
3. If you decide to keep it, we allow \$5 for your old side-arm, furnace coil or coal pot heater, plus a generous installation allowance.

Ask your ANTIOCH APPLIANCE DEALERS or see the display at our nearest Gas Appliance Store:

Ivy Day

The annual Ivy Day will be observed by the members of the senior class at the high school Monday morning at 9:30 a. m.

Every member of the graduating class of 1941 will take part in the ceremony of the planting of the ivy on the high school campus on Monday. Interested spectators are invited to witness the processional of seniors in their caps and gowns perform the ceremony, headed by the ivy group, composed of leading members of the senior class.

J. O. Austin, principal of the high school, will present the ivy pledge to the ivy group, which will consist of Doris Klass, the Ivy Bearer; Fred Hawkins, president of the senior class; Jim Harvey, president of student council; Roberta Selzer, representing Alma Mater; Richard Hartnell, the Memory Box Bearer; Irene Pachay, the Sealer, and Jim Austin, the Spade Bearer. As part of the ceremony, the D. A. R. Good Citizenship Award will be presented, and there will be the presentation of the gavel to the new president of the student council.

The Ivy Choral group will consist of Virjean Hook, Mary Kay Lynn, Jeanne Mack, Violet Loftus, Joan Smith, Mary Osmond, and Joyce Anderson.

Mrs. Marguerite K. Phillips is in charge of the direction of the Ivy Day ceremony.

Mr. and Mrs. Harry Bascom and daughter, Miss Margaret Bascom, and William Lawrence of Newton, Mass., were guests at the home of their cousins, Mr. and Mrs. Carl Anderson from Wednesday until Monday. The Andersons held open house Friday afternoon and evening in honor of their guests, and relatives and friends, from Chicago, Waukegan, Gurnee, Millburn and Kansasville, Wis., called to visit the Bascom family.

Memorial Day services will be held at Millburn cemetery Friday afternoon at 2 o'clock with Mrs. Ida Truax, chairman of the day. The Rev. J. W. Davies of Waukegan will be the speaker.

Mrs. Edwards of Forest Park spent Sunday with her mother, Mrs. Marie Edwards.

Mr. and Mrs. Hugh Sands of Fairfield, Iowa, were guests at the L. S. Bonner and Victor Strange homes Thursday and Friday.

Mrs. William Huth spent the past week at the home of her daughter, at Madison, Wis., and also attended the graduation exercises of her grandson.

Mr. Pettijohn is a teacher at Chicago university.

There will be no Ladies' Aid meeting next week.

Douglas-Dibble

The Rev. Walter MacArthur performed the ceremony last Saturday afternoon at 5 o'clock at the community church which united Miss Cornelia Douglas, daughter of Mr. and Mrs. Oscar Douglas and Howard Dibble, son of Mr. and Mrs. Sidney Dibble, in marriage before a large gathering of relatives and friends, before an altar banked with baskets of bridal wreath and lighted with many candles, making a beautiful setting.

Walter Shultis of Waukegan, a relative of the bride accompanied by Mrs. Harriet Davis, sang "O Promise Me" and "I Love You Truly," preceding the ceremony. The bride, beautiful in her gown of white lace and chiffon, was given in marriage by her father. She also wore a finger-tip veil. She was attended by Mrs. Gordon Skofstad of Waukegan as matron of honor, who wore a floor length gown of blue silk, and by Mrs. James Howard of Round Lake Beach as bridesmaid, wore a floor length gown of pink. All carried colonial bouquets. Mary Ellen Douglas, small sister of the bride, in a blue gown, was flower girl. Matron of honor and bridesmaid also wore blusher veils.

The bridegroom was attended by

James Howard and Gordon Skofstad. Following the ceremony, a reception was held at Sherwood Park, where the group spent a pleasant evening. Guests were present from Kenosha, Waukegan, Waukegan, Chicago, Milwaukee and Lake Villa. The couple has already gone to housekeeping in a cottage near Grass Lake.

Mr. Dibble is an employee of the Public Service company.

There will be no Ladies' Aid meeting next week.
